Mayor Emanuel cut the Chicago Public Library budget and laid off 176 library staff. Then he unilaterally shut down the branch libraries on Mondays.

But the facts don't support the Mayor's argument that library hours must be reduced. **There are many options for funding libraries** – TIF surpluses, scaling back corporate subsidies, asking companies to support libraries as they are being asked to support the G8 meeting in Chicago and more.

Show up to send a clear message:

Chicago residents love their libraries!

Reverse the cuts to Chicago Public Libraries –
rescind ALL layoffs and restore ALL branch library hours.
